BRICKS! BRICKS!

And Brick Buildings.

The undersigned having consolidated their interests in the brick and building business, are now prepared to contract and erect structures of brick, or any building in the line of brick work, at low prices. We feel confident that we can and will erect brick buildings for a less price than any other locality upon the coast. It has been satisfactorily proven that brick withstood the terrible fire fiend in Chicago better than stone or any other material that was used in erecting the costly structures in the famed city of the great northwest, and as this is a very dry country the greater part of each year, (it's a wet season hence the necessity of building habitations and places of business out of indestructible material by the fire element, and guard against the extreme of the summer sun. Brick houses can be made much cooler than wooden ones.

To the People of Woodland and Vicinity

We would say that we intend to manufacture a large amount of brick this season, which will enable us to sell and erect buildings for a less price than if we did not manufacture largely.

To the People of Dixon and Davisville

That we will furnish you brick upon the cars in Woodland at a low figure when any considerable quantity is taken.

For any of the people in the country, living at too great a distance to haul bricks from our yard here, we are prepared, if they desire it, to make the brick upon their farms and erect their buildings.

Self-Condemned.

[From Tilton's Golden Age.]

The severest commentary that can be made on the failure of Grant's first term of the Presidency is the platform on which he stands for re-election. Every important promise which that platform puts forth for the future is a confession of the Administration's dereliction in the past. Each successive pledge made at Philadelphia turns State's evidence to convict the very candidate in whose behalf it was made. Examine some of the points.

I. Grant's platform demands a reform of the civil service. Why, then, has not his administration already given us this reform? The President has been in power three and a half years—nearly one whole term. During this period he has always had a working majority in both houses of Congress at his daily command. Indeed some times this majority has exhibited toward him the subserviency of fickspittles. They have been only too prompt to do his bidding. Have they not made indecent haste to confirm his brothers-in-law, his nephews, his uncles, his wife's relations, and all the host of his nepotistic appointments? Were they not quick to catch his wink and obey his beck for the removal of Charles Sumner from the Chairmanship of the Committee on Foreign Relations? Did they not submissively bend their knees with the President's in a common and ignominous surrender to England? When has he failed of their votes for any purpose, good or bad? Never! Why then does his party go to Philadelphia and through the unanimous mouth of a packed Convention demand civil service reform? Of whom do they demand it? Of themselves. What thoughtful citizen therefore can help asking: Why have they not already inaugurated civil reform? What excuse can they give for having delayed it? How can they ever apologize for the crime of having thus far thwarted it? What will they say of their own orator, Gen. Butler, for denouncing it? Out of their own mouths are they adjudged guilty. They are self-condemned.

II. Grant's platform demands the abolition of the franking privilege. Why then have his partisans in Congress systematically voted *against* the abolition of the franking privilege? Have they not had the fairest of opportunities to accomplish this reform? If they had been in earnest to achieve this triumph, they could have done it at any time within the last three years. To say now that the franking privilege ought to be abolished is simply to indict the President and his friends for not having abolished it long ago. Here again they are self condemned.

III. Grant's platform asserts state-rights. Why then has he systematically violated state-rights! Why have we had for three years an unbroken series of intrusions by the Federal government into local affairs? Why, for instance, has it been the practice of Mr. Thomas Murphy and the New York Custom House to give laws to the Syracuse Convention? Why has the Federal government aided and abetted the alien and carpet-bagging governments in the Southern States, the like of which for rottenness have never been matched in our history save by the Tammany Ring? Why has the Administration conveniently thrown out the votes of three or four, four or five, five or six counties in some of these states at the sovereign pleasure in order to keep its own partisans in power? State rights, forsooth! These have never been so flagrantly violated as by Grant and his party. To say now that these rights should be maintained is only to say that they have been well-nigh destroyed. And the party that thus pretends to maintain them is the very party that has been sedulously destroying them. After three years of this destruction the President and his partisans have now the effrontery to declare themselves in favor of what they have annihilated. Such culprits are self-condemned.

IV. Grant's platform asks for encouragement to ship-building. Why then has his Administration done nothing for American commerce except to cripple and repress it? Why are American merchants doing but thirty-six per cent, of their own carrying trade—leaving the remaining sixty-four per cent. to fall as a precious prize to foreign flags? The Administration has had nearly four years in which to blot out this disgrace. Why is its pitiful record concerning our maritime prospects reduced to a specious promise that, though the government has done nothing to mote ship-building during the last four years, it will try to remedy this neglect during the next term? The Philadelphia statement of the decay of our commerce is the Administration's confession of its misgovernment. The President and his re-nominationists are witness-bearers against their own delinquency. They are self-condemned.

V. Grant's platform demands that American citizens in foreign lands shall be protected in their just rights. Why then has he, in an unhappy number of signal and flagrant cases, suffered American citizens abroad to be outraged without protection, and mulcted without redress? A distinguished Union General exclaimed with great indignation a few days ago, "The safest act which any foreign government can now commit is to hang an American citizen."

He was partly right. Now it is not enough that the President should promise in a campaign document that American citizens travelling in other countries are hereafter to be protected; he must also give answer why they have not heretofore been protected. His platform-writers have here again innocently confessed themselves guilty. They are self-condemned.

VI. Grant's platform demands that sympathy should be extended to foreign nations struggling for liberty. This is a bid for the Fenian and Cuban vote. But has the Administration up to this time ever shown any sympathy either with Fenians or Cubans? And if it is to show such sympathy in future will it not prove itself guilty for not having done so in the past? Its own declaration of duty in this respect is the plainest possible proof that this duty (if it be such) has been left undone. The President and his party are once more self-condemned.

VII. Grant's platform says that the the public lands should not be squandered. Why then have his friends regularly and lavishly squandered them? Let any reflecting student of our country's condition consult the records of the department of the Interior, and scrutinize the enormous and astounding table of recent land grants for railroad corporations! The Union and Central Pacific have had 25,000,000 acres; the Sioux City and Pacific, 580,000; the Central Branch of Union Pacific, 245,000; the Northern Pacific, 47,000,000; the Atlantic and Pacific, 2,330,000; the Southern Pacific in California, 3,520,000; and the Texas Pacific, 18,000,000—making for the various Pacific Roads a total land grant of 148,000,000 acres! Now, without stopping to talk of the rightfulness or wrongfulness of granting government land to railroads, what shall be said of the monstrous self-stultification of a political party that declares against such land grants, having itself been guilty of making them to the colossal sum total of 150,000,000 acres? We repeat, the President and his convention are self-condemned.

VIII. Grant's platform puts forth a platitude concerning the proper supremacy of the civil over the military power. Why then has the President so persistently and defiantly elevated the military over the civil? Why did he make an unauthorized and illegal use of the navy in a war-like act against Hayti? Why has he in direct defiance of a civil statute surrounded himself with military instead of civil secretaries? Why, in equal violation of law, is his son, an army officer, now absent from duty in a foreign land, pursuing a pleasure excursion from which such a lieutenant (even though a President's son) is forbidden by the very regulations of the service? Why did the President's brother-in-law, a Custom House officer in New Orleans, employ a Federal vessel and bayonets, with military menace and threat of blood-shed, to overawe the civil functionaries of a State Government? Why did the patriotic Governor of Illinois find it necessary to repel and resist the Federal encroachment of a military President who sent troops into that State for purposes at war with its civil and local law? Why was an attempt lately made in Congress, partially successful, to give the President power to suspend the *habeas corpus*, to clutch the State machinery of the elective franchise, and to reelect himself by the help of martial law? If Grant and his body-guard at Philadelphia profess that the civil power should be supreme over the military, then by their acts they belie their words. He and his brigade are self-condemned.

Now let the preceding citations be well pondered. They constitute a series of indictments which President Grant's platform makes against his own Administration, even allowing its best friends to be the judge in its own case. It is the spectacle of a President put under condemnation by his own party—nay, more, of a President and his party making a joint and unanimous testimony against themselves. They are self-condemned. Nothing remains, therefore, but that they should be condemned by the people.

THE EXPEDITION OF PROF. AGASSIZ. The steamer *Hassler*, with Prof. Agassiz and his party of scientists, sailed from Valparaiso for Panama on the 18th of May. While at that port Dr. Domeyki, himself a man eminent for scientific research, made Prof. Agassiz a present of duplicates of his entire collection of fossils, said to be by far the most complete and valuable in South America, and which he has been thirty-five years in collecting. Prof. Agassiz states that his voyage has been crowned with success far beyond his most sanguine expectations. He stated to a correspondent of the New York *Herald* that the various and valuable specimens he had succeeded in collecting would, he was confident, form a museum of which the country might feel proud; and the different observations—geologic, geographic, and in other particulars—which he had made, would prove to be of more than general interest. At Lima Prof. Agassiz was entertained in princely style by Harry Meiggs. The only point of the whole expedition on which Prof. Agassiz had any complaint to make was concerning the imperfections of the *Hassler*. He said she had deceived them on several occasions, and that her sea-going qualities were not of that nature calculated to aid him greatly in his efforts. But, at the same time, the excellent officers on board, by their good judgement, had in a measure neutralized this defect. At every port where the distinguished savant touched he met with a cordial reception. The results of his labors, when written out, will doubtless be the richest contribution to science that it has received in a century.—*Call.*

A NEW AND AN EXTRAORDINARY FIRE-PROOF COMPOSITION.—An important trial of fire-proof composition was made at Washington the other day, under the direction of the Secretaries of the Treasury and Navy. An iron chest, sixteen inches in diameter, with a lining of six inches of the composition, also containing a wooden box four inches in diameter, in which were deposited papers, money and matches, was placed in the blast furnace of the Navy Yard, and different metals placed all around it. After being subjected to an almost continuous blast of three hours, which melted all the metals, the chest was left in the furnace until the next afternoon, when under the directions of the representatives of the Government, the three chests were opened, and the contents were found to be in exactly the same condition as when they were put in, and the matches were used to light cigars with. The fire proof composition is the discovery of two gentlemen of Detroit, one of whom was present at the trial.—*Phrenological Journal.*

ANOTHER MARCH THROUGH BALTIMORE.—Ben. Butler's famous march through Baltimore has been recently eclipsed, says the *Bee*, by the forces under command of Col. Tom Scott, President of the Pennsylvania Central Railroad. He was building a rival line to the Baltimore and Ohio road, and its way laid through Baltimore. Just as the track reached the suburbs of that city it was learned that the opponents of the road would the next day sue out an injunction to prevent the farther laying of the track. A large force of men from along the line was immediately massed, and at night set to work with picks, spades and bars. Before Court opened next morning the march through the city had been completed, the track was laid and the threatened injunction headed off.

The Year of Jubilee.

[From the Vallejo Daily Independent, July 14.]

Peace on earth and good will towards all men. This might be appropriately taken as the motto of a party whose chosen leader is a peacemaker, and who, burying malice and turning his back upon the errors of a portion of his countrymen, cried aloud for peace as soon as they laid down their arms. While insisting upon making sure and steadfast the results secured by the war, he has never ceased to extend the olive branch to his erring countrymen and to plead for a restoration of rights, civil and political, to all who lost them by acts of rebellion. Horace Greeley occupies the proudest position to-day of any living man, be he prince, potentate, subject or citizen. By a just, open, manly and Christian course he has converted the hate of millions of his countrymen into love, and from being a despised enemy, he is proudly followed as the captain of their political salvation. Seldom within the history of any country has so radical a revolution taken place. He has reached this proud position by no demagogy or truckling hypocrisy, but by the honest and bold adherence to the golden rule which teaches us to do unto others as we would have them do unto us. Whether elected or beaten, Horace Greeley is immortalized. Whatever may be his political fate he will live in the hearts of his countrymen and his memory will be perpetuated in rhyme and prose, in song and story, as long as the memory of the slavery he did so much to abolish is remembered by the colored race, or the freedom and equality he did so much to restore is treasured by the whites. We firmly believe, however, that he is to be the instrument in the hands of Providence of bridging the bloody chasm and inaugurating an era of peace and good will which will spurn sectional lines and be as extensive as the grand Republic itself. The American people are tired of dwelling upon the horrors of a war long since closed. They are sickened by the perpetual reminder by demagogues of an unhappy strife, to arouse the baser feelings of their nature and kindle anew the passions which were engendered by it. They have determined that the war shall cease, that as the old flag floats over a peaceful and law-abiding people, the Union which has been enforced by the sword shall be a union of hearts and hands and not merely a union of territory. More than this, he has raised the banner of reform, and is the chosen leader of those who would rescue their countrymen from the corruption which is seated at Washington, and is an offense to the people of the entire Republic. If elected, the hungry horde who have vampire-like sucked the lifeblood of the nation for years, will be driven from their spoils, and honest men take their places. No one doubts Horace Greeley's honesty or the purity of his motives. His opponents fear he will be too honest and confiding, and will be imposed upon. They gravely object to his honest simplicity. The people, however, will regard these traits as an impregnable fortress unapproachable by tortuous paths and proof against flattery or presents. We anticipate that this will be one of the most exciting campaigns ever witnessed in the country, and that Horace Greeley will be the next President of these United States. Then, indeed, may the people sing "The Year of Jubilee has come."

WILL DIVIDE HIS LANDS.—Judge O. C. Pratt advertises in the Chico *Enterprise*, that he will sell farms in quantities to suit, on the "Aquas Frias Rancho," situate on the east side of the Sacramento River, in the counties of Butte and Colusa, at from $15 to $60 per acre according to quality. This is certainly a most desirable object, so far as the public interest of the county is concerned, and we are confident in the belief that Judge Pratt will find it to his pecuniary benefit. It would be an immense stride in advance if all our large landowners would do likewise. It would add greatly to our population, wealth and standing, and bring into full play the vast agricultural resources of the county. It would introduce diversified farming, which constitutes the true wealth of an agricultural community, instead of vast flocks and herds, and an occasional large field of grain. We heartily commend this action of Judge Pratt as a wise and prudent one for his own interests, and of incalculable benefit to those who would secure homes in a pleasant and productive locality:—*Butte Record.*

LIEU LANDS.—Our very good friends of the *Sutter Banner*, fearing that some of their readers might not understand the lieu land question, have undertaken to make it clear, as follows: "Lieu Lands—what they are.—There seems some misunderstanding among different parties in regard to what constitutes Lieu Lands. As near as we have been able to ascertain, they are lands granted by the Government to the State in lieu, or instead of swamp and overflowed lands. The authorities at Washington granted to the State of California all the swamp and overflowed lands within the State. They also donated to the State certain lands (the 16 and 36 sections) for school purposes, and on locating these lands it was found some of them were included in the swamp and overflowed lands, and belonged to the State already. The Government then granted to the State certain lands in lieu of or in place of those that belonged to the State already, and the lands so granted are the 'Lieu Lands.'"

THE Joliet, Ills., *Signal* says: "There are at least two hundred Republicans in Joliet who will vote for Greeley and Brown. In the other towns of the county at least one-third of the Republican voters will do the same thing. From present indications. Will county will give the Greeley and Brown ticket over five hundred majority." This is a fair sample of the news from all sections of Illinois. A change of ten votes in each of the 2,000 townships of that state would make a difference of 40,000 in the majority of 1868 for Grant. In nearly all the townships heard from the changes made from Grant to Greeley have been by fifties and hundreds rather than by tens. And yet thousands of Republicans are only waiting on Baltimore. The "outstretched hand" will be grasped by multitudes who now stand silent, and the Liberal ticket will then sweep the Prairie State like a whirlwind.

Greeley's Speech of Acceptance.

A telegram from New York, dated July 12th, says that the speech of Doolittle notifying Horace Greeley of his nomination by the Baltimore Convention was brief and formal, after which he introduces the members of the Committee. Greeley in reply spoke as follows:

"I should need time were I to attempt to reply fitly and fully to so important and I need not say so gratifying a communication. It may be that I should reply in writing, but as I have addressed a letter, which has been pretty widely considered, to the Liberal Republican Committee, it may not be necessary. I can only say now that I accept your nomination, and accept it in the same spirit in which it was offered. I am at present in a position which many, doubtless, regard as a proud one, but which is still an embarrassing one, because it involves temporary, and I trust only temporary, annoyance and a misconstruction of my motives on the part of some valued and lifelong friends. I am confident time alone is necessary to vindicate my motives to all candid observers, and to convince all, indeed, of the disinterestedness and patriotism of the course I am pursuing and intended to pursue long before I was assured of so much co-operation and sympathy. [Cheers.] The time will come, and I trust in God opportunely, too, when the world will see that you are no less Democratic because you have pursed the course you have and that I am no less Republican because I accept your nomination." [Cheers.] Here Greeley's voice faltered with emotion. He recovered himself and continued: "I am not much in the habit of receiving nominations for the Presidency. [Great laughter.] I am consequently unable to reply as readily and fluently as others. [Renewed laughter.] I can only say I shall be happy to see all of you, or at least as many of you as can come, at my humble farmer home, where I shall be to-morrow, and where we shall be able to converse and confer more freely than here. If you will come I shall be happy to make you welcome to the best the farm affords. [More laughter and cheers.] And so I simply wish you farewell."

GENERAL D. A. HILL ON THE SITUATION AND DUTY OF THE SOUTH.—General D. A. Hill, in a late issue of the *Southern Home*, concedes the necessity of the union of the Democratic and Liberal Republican parties. He says in reference to Mr. Greeley: He has come more than half way with extended hand to meet the estranged and oppressed South, and we can consistently, with our ideas of honor and chivalry, step forward to welcome him. It is simply preposterous to say that this is an abandonment of principle or a stultification of our previous action. * * * Let the era of good feeling be inaugurated by the election of Mr. Greeley. We must get rid of bayonet rule, else the South will become a desert. The Democracy of the North cannot understand our position, for they know nothing about it. They do not see daily arrests of our best citizens upon illegal and unreliable testimony. They do not see officers of the army, gentlemen by birth and education, playing bum-bailiffs to gratify the money-greed of dirty United States Marshals. They do not see the country paralyzed, the fields and farms abandoned, homesteads deserted, and, poverty and ruin staring in the faces of thousands. They do not hear the cries of wives and mothers when their loved ones are hurried off to 'felons' cells.' None of these things are understood by them, and they acuuse the South of being recreant to principle because she is ready to accept Greeley. We know certainly that the election of General Grant means robbery, outrage and oppression. We believe that the election of Horace Greely will bring relief. We are in no condition to try experiments. It is possible that a Democrat can be elected, but is not probable. Property, life and liberty are at stake with us. We can not afford to take any risk, and we will not take any." General Hill, therefore, advises the South to one of two courses; either to keep away from Baltimore, or to send Southern delegates there who will go resolved to win.

TO CURE THE LOVE OF ARDENT SPIRITS.—A correspondent of the San Francisco *Alta* furnishes the following recipe to break off a love of liquor:

Captain Hall was commander of the Great Eastern steamship. He had fallen into such habits of drunkenness that his most earnest efforts to reclaim himself proved unavailing. At length he sought the advice of an eminent physician, who gave him a prescription which he followed faithfully for seven months. At the end of that time he had lost all desire for liquor, although he had many times been led captive by the debasing appetite. The prescription, which he afterwards published, and by which so many other drunkards have been assisted to reform is as follows: "Sulphate of iron, 5 grains; magnesia, 10 grains; peppermint water, 11 drachms; spirit of nutmeg, 1 drachm—twice a day."

INCREASE OF RAIN.—It is a curious fact that as the settlements spread beyond the Mississippi, rain increases both in frequency and amount of water. Many beds of streams which were uniformly dry in Summer only ten years ago, are now full throughout the year. Travelers over the Laramie plains inform us that they were once destitute of vegetation; now they have a luxurious growth, and will raise large crops of wheat. Denver was built on the banks of an extinct creek, perfectly dry. Now it is full of water, and needs to be crossed by bridges. Salt Lake is seven feet higher than ten years ago, and is steadily rising. The vast plains which engineers once pronounced uninhabitable, and fit only for droves of buffalo, because destitute of streams and springs, may yet become great States, the home of a crowded population.

ARKANSAS.—The New York *Sun* says: "One-seventh of the whole State of Arkansas has been sold to pay the exorbitant taxation imposed on her citizens under carpet-bag rule. The wholesale robbery of the people of Arkansas with all the ballot-box stuffing and other election frauds through which it was accomplished, has been endorsed by the Philadelphia Convention, which appointed Powell Clayton, the leader of the carpet-bag plunderers, a member of the Grant National Executive Committee.

Free Speech.

The first great battle in the political history of our country was fought between the Federal and Democratic parties over the question of free speech. The alien and sedition laws passed during the administration of the elder Adams, providing punishment for the use of language disrespectful to the President, and investing the latter with arbitrary power in the execution of the law, aroused the Democratic masses throughout the country. Under the leadership of Thos. Jefferson, the Democracy entered the list as the champion of free speech and personal liberty, and the result was the defeat and overthrow of the Federal party. From that day to this, no political organization has dared to openly advocate the arbitrary ideas of the Federalists, but we find to-day that some of the underlings of the present Administration do not hesitate to put them in practice. Witness the following pronunciamento issued very recently in Oregon:

NOTICE.—Any person employed on this work—Cape Foulweather Lighthouse—who shall speak disrespectfully, on or off duty, of the President of the United States, or of any member of the Cabinet, or any superior officer of the Government, will be immediately discharged. HENRY M. ROBERTS.

Major of Engineers, U. S. A.

Does not this smack strongly of old Federalism? Nay, it goes further than that party ever attempted. This military understrapper of the great Ulysses forbids, under penalty of "immediate discharge," any remarks which he may deem "disrespectful" to his imperial master. The mouths of all who work for a living, although they pay taxes to keep up the Government must feel such petty despots as this man Roberts, must be muzzled by his order, lest they speak "disrespectfully, on or off duty, of the President of the United States, or any member of the Cabinet, or any superior officer of the Government." We sincerely hope that the coming election will teach such creatures manners, and make them understand that they are "servants of servants," and not masters of the people.—*S. F. Post.*

The German Movement.

In the Baltimore Convention Governor Hoffman presented a manifesto signed by 15,000 Germans of New York, asking the nomination of Greeley and Brown. Below we append the full text of the document thus numerously signed:

WHEREAS, at a conference of a small number of citizens from various parts of the Union, held in one of the parlors of a hotel in this city on the 20th and 21st of June, a few men, without any authority whatever, have assumed to speak as representatives of the German-Americans, and were reported to have given expression to sentiments utterly at variance with the opinions held by the undersigned, and thousands upon thousands of their countrymen in this city and all over the Union; and, whereas, unfounded statements then and there made, are now threatened to be urged upon the National Democratic Convention at Baltimore as the sentiments entertained by German voters on the question of choosing candidates for the Presidency and Vice-Presidency of the United States,

Resolved, That in our opinion the ticket chosen by the Cincinnati Convention is a guaranty to peace, to a reunion of hearts as well as hands, and to honesty, economy, prosperity and progress in the administration of our national affairs.

Resolved, That we are firmly convinced that the nomination of Horace Greeley and B. Gratz Brown by the Baltimore Convention will be enthusiastically received and heartily supported by a vast majority of the German-Americans, without regard to their former associations, for the simple reasons that in the present state of the country and parties no more fitting and satisfactory nomination could be made.

Resolved, That the foregoing resolutions, together with the signatures attached to them, be handed by a special delegation of German-American citizens to the Chairman of the New York delegation to the Baltimore Convention.

THE HEAT IN NEW YORK.—The New York *Tribune* thus comments on the subject:

"The sixth day of dreadful heat has passed and still there is no substantial relief. The "local storms" which the Weather Bureau predicted for the Atlantic coast have wasted their balm upon the sands of Jersey, or drifted out to sea and poured their refreshing waters into the Atlantic. The wind which blew over the city yesterday was as hot as the wind of the desert. The roofs and pavements of suffering New York still blaze in the angry sun. A million people pant for a breath of cooling air. Poisonous exhalations rise from the festering streets. Gutters reek with fever-breeding stenches. Seventy persons dropped dead from the heat in a single day, and hospitals are crowded with delirious victims. The night brings no rest, for it is as hot as the day. From the tenement quarters crowds of half-dressed men and women hurry, when darkness comes on, to the parks and open squares and the steps and porticos of public buildings. In houses of the better class people toss all night sleepless on their heated beds, or pass the midnight hours at their windows longing for a cool breeze which never comes, and fretting over the oppression which is never relaxed. The wretchedness is universal; and to hundreds, whose occupations expose them especially to the influence of the sun, such a day as yesterday and Tuesday brings not merely suffering, but death."

SOME twenty ships are now in California waters, having an aggregate carrying capacity of 25,000 tons, and nearly two hundred more are on the way hither. Estimating the wheat crop at 400,000 tons, these vessels will not have sufficient capacity to take it all hence. The Panama steamers commenced running tri-monthly on the 1st prox., and expect to carry wheat by that route to connect with the English steamers at Aspinwall. Freights by sailing vessels to English ports from San Francisco are quoted at $20 per ton, although it is stated that vessels on the way are under engagements at $18. The rates ruling are exorbitant, but English commerce has it all her own way now.

The Yolo Democrat.

COUNTY AND TOWN OFFICIAL PAPER.

WOODLAND, CAL:
Saturday, July 20th, 1872.

REGULAR DEMOCRATIC NOMINATIONS

FOR PRESIDENT,
HORACE GREELEY,
OF NEW YORK.

FOR VICE PRESIDENT,
B. GRATZ BROWN,
OF MISSOURI.

VALLEJO.—There will be a great Greeley and Brown ratification meeting in Vallejo on Saturday next, July 27th.

DISAGREED.—The trial of Stokes, in New York, for the murder of Fiske, has terminated by a disagreement of the jury.

ILLINOIS.—Gov. Palmer, of Illinois, is stumping it for Greeley and Brown, and with great success. Large and enthusiastic audiences greet him whenever he speaks. He is an effective stump speaker.

TO BE REPAIRED.—A correspondent of the *Examiner* writing from Dixon on the 16th, learns from the Roadmaster and others that the railroad from Davisville to Sacramento will be repaired within thirty days.

DOUBLE DEATH.—James Lyons shot and killed a man named Muir, in San Francisco, on Sunday last. Lyons was taken to jail and died in a few hours from an affection of the heart, aggravated by the excitement of the quarrel.

GAMBLING COMMENCED.—A bet of 10,000 a side has been made by George Wilkes, of the New York *Spirit of the Times*, and ex-Collector Murphy, of New York, upon the Presidential election—Murphy backing Grant and Wilkes betting on Greeley.

"SELF-CONDEMNED."—For a severe overhauling of Grant and the Administration by a prominent member of the Republican party, read the review under the above heading on our first page by Theodore Tilton, heretofore one of the brightest lights of Radicalism.

NOT OVER-CONFIDENT.—The Sacramento *Bee* candidly admits that in order to secure the election of Grant, "his friends must put forth all their efforts and manifest every particle of wisdom of which they are possessed. It will not do to be over-confident or supine."

GOOD CANDIDATE.—Henry George, editor of the *Evening Post*, formerly of the Sacramento *Reporter*, is named as the probable anti-Administration candidate for Congress in San Francisco, and we hope he will win, for we don't believe a more competent man could be selected.

THE GERMANS.—The Vallejo *Independent* says special pains have been taken to ascertain the political sentiment of the Germans in San Francisco. They districted and thoroughly canvassed the city and the result shows that about nine-tenths of the Germans are supporters of Greeley.

JULIAN FOR GREELEY.—The following extract from a letter from Hon. George W. Julian, of Indiana, was read before the Greeley Club at a recent meeting in San Francisco: "Greeley will run it through, and I am confident will be elected. Everything looks like a popular avalanche in his favor. Hurrah for Greeley."

"THE INLAND MONTHLY" is a new magazine published at 407 North Fourth street, St. Louis, Mo., by Charlotte Smith, at $3 per year for single copies or 6 copies for $15. It is a well conducted, readable magazine, and is very highly spoken of by the Eastern press. Send draft or postoffice order to the above address.

THANKS.—Just as we go to press we have received from the office of *The Golden Age*, New York, the proceedings, in pamphlet form, of the Liberal Republican Convention in Cincinnati, June 1st, 2d and 3d, 1872. The pamphlet also includes Greeley's letter of acceptance and the address of the New York State Committee.

RATIFICATION IN MARYSVILLE.—The supporters of Greeley in Marysville held a ratification meeting on Saturday evening last, which was addressed by George Barstow, of San Francisco, and presided over by Judge Keyes. Such Republicans as C. G. Brekins, Dr. Harrish, A. J. Batchelder, Thomas J. Sherwood, Wm. Carpenter, Judge J. L. Hall and A. S. Smith, editor of the *Standard*, acted as Vice-Presidents. Many others influential men who have formerly acted with the Grant party took part in the meeting.

TURNING FROM GRANT.—The Syracuse *Standard*, the leading Republican paper of central New York, in a powerful article, abandons Grant, and comes out for Greeley. The Philadelphia *Post*, a Republican paper of 25,000 circulation, comes out in a remarkable article abandoning and repudiating the Grant Administration as unworthy of further support, and hoists the flag of Greeley and reform. It calls for a "chance." The Fort Wayne, (Indiana) *Staats Zeitung*, after long delay and reflection, announces its adhesion to the union party of Greeley and Reform.

"CHRONICLE" ENTERPRISE.—Mr. Charles De Young, proprietor of the San Francisco *Chronicle*, has just returned from the East, having purchased a new and powerful press for his paper. We learn says the *Record*, that it is a four cylinder quarto Hoe press, printing the whole four pages of the paper at one impression, and throwing off ten thousand copies an hour. The cost of the press is $25,000, and it will require $5,000 more to set it up in San Francisco. It will be the most powerful printing press on the Pacific coast, though it requires less force to run it than the ordinary eight cylinder, which nevertheless exceeds in capacity.

THE PUBLISHERS' CONVENTION.—What has become of it? A committee was appointed at the initial meeting on the 16th of April last to prepare a circular and address it to all newspaper publishers throughout the State, proposing another Convention for the purpose of fixing a scale of advertising rates, etc. That committee consisted of Messrs. Porter, of the Contra Costa *Gazette*, Halley, of the Brooklyn *Home Journal*, and McPherson, of the San Mateo *Gazette*, and has not yet reported. It seems to us to be high time that circular was out. If no action has yet been taken in the matter, we beg leave to suggest that the best time and place for holding the Convention would be at the State Fair, in Sacramento, where there will doubtless be a large gathering of publishers from all parts of the State, and we think a larger attendance could be obtained then than at any other time. Brother publishers generally, and gentlemen of the committee in particular, what say you?

Another Narrow Gauge Railroad.

This subject is engaging the attention of many of the wealthy men in this and adjoining counties, who have recently been canvassing the matter somewhat with a view to the construction of a road of that kind, of 22-inch gauge, from Elkhorn, on the Sacramento River, directly east of this place, to run almost directly west through Woodland to Davis' Ranch, at the head of Cache Creek Canyon, a distance of thirty-seven miles, and to within ten miles of the celebrated Knoxville Quicksilver Mines. In connection with this line another is proposed, to start from Woodland up the west side of the Sacramento Valley to Colusa, a distance of forty-five miles; the two lines forming a junction at this place. No regular survey has as yet been made, but gentlemen of experience and capital have examined the routes, among them a practical railroad engineer, and they have found that the project is entirely feasible; that the country is rich and extremely productive, offering a good paying patronage; that at the point mentioned as the eastern terminus vessels and steamers as large as ever reach Sacramento can have easy access at all times, so that rapid, direct, and cheap transportation would be insured. Careful estimates of the cost of such a road have been made which foot up $9,000 a mile, including grading, bridging, ironing, rolling stock and everything ready for doing business on the road. Hon. F. S. Freeman, who is taking considerable interest in this subject, informs us that subscriptions have already been offered by a few companies and individuals, all of whom we are assured are strictly reliable, to the extent of $175,000, and he feels confident that by a thorough canvass the whole amount of stock necessary to put the roads in operation can be raised without difficulty. The plan we understand to be that the whole amount of the estimated cost shall be subscribed before anything else is done, so that no bonds will have to be issued nor any mortgage be put upon the road to cripple and injure the management and depreciate the value of the stock; but that assessments shall be made upon the capital stock of the company as fast as is necessary for the completion of the road. We are not prepared to state what the amount of business of this new road would probably be; but we do know that the country through which both branches would pass is as productive as any portion of California; and besides, there would be every inducement to continue them beyond the points mentioned, which would give a direct outlet to Lake and Mendocino counties on the one hand, and to the immense resources of the Northern Sacramento Valley on the other. Then, too, if deemed desirable, the road at the eastern terminus could be carried along the levee, about ten miles, to Sacramento. It seems to us this would be advisable, and doubtless Sacramento capitalists could be induced to take sufficient interest in the company to make that city the terminus. For the sake of our farming and business community as well as for the prosperity of our town, and as a means of developing the resources of Yolo and adjoining counties, we hope this matter will be kept alive and pushed through to a successful consummation.

Lack of Shipping.

To the lack of tonage to carry off the crop is attributable the very low price farmers are offered for their wheat this Summer. The Liverpool market is not more than sixpence lower than it was three months ago, when wheat brought in Woodland $1.80 per cental, yet now the highest price paid here is $1.35 to $1.37½. In consequence of this state of things farmers of course do not hurry to sell unless they are forced to from press of circumstances. And who can blame them? Still we are unable to see any prospect for an improvement, unless a rise takes place in the Liverpool market, which entirely governs ours. The price there now, reported by telegraph, is 12s 2d. to 12s 6d. —equal to at least $1.75 here in Woodland. But tonage is scarce and is apparently controlled by a monopoly. And to what cause is this unusual scarcity of vessels attributable? Is it not in a great measure owing to the fact that ship building has been virtually prohibited by the high tariff on all imported ship building materials ever since the war? Our ship yards have been deserted for years for this reason. Under the high tariff of the present administration Americans cannot compete with foreign ship builders, and hence the scarcity of American merchant vessels. Farmers, this is the underlying difficulty. If there were, as formerly, plenty of ships to carry off our surplus crops, wheat would to day bring a good round price instead of the low figure now offered. The exorbitant freight rates on account of the scarcity of vessels causes a loss to the farmer of 40 to 50 cents per 100 pounds.

IMPORTANT WITNESSES.—The *Mountain Democrat* truly says that history fails to record an instance in which official corruption has been testified to by such prominent witnesses as that of the present incapable, corrupt and usurping administration. Among the thousands of prominent men whom honesty compels to denounce we have:

Charles Sumner, Republican United States Senator for Massachusetts;

Lyman Trumbull, Republican United States Senator for Illinois;

Thomas W. Tipton, Republican United States Senator for Nebraska;

Carl Schurz, Republican United States Senator for Missouri;

Reuben E. Fenton, Republican United States Senator for New York;

James M. Palmer, Republican Governor of Illinois;

Andrew G. Curtin, Republican ex-Governor of Pennsylvania;

Jacob D. Cox, Republican ex-Governor of Ohio;

Hon. Austin Blair, Representative of the Third Congressional District of Michigan;

Several hundred of the most widely circulated and influential Republican newspapers.

THE OVERLAND MONTHLY FOR AUGUST.—We have never yet encountered an inferior article in this magazine. Its pages reflect the free, bold, and almost defiant tone of Western life and associations. The August number, now before us, is especially illustrative of that point, being filled with terse, vigorous, strongly-worded articles that enforce and retain attention. "A Chapter of Condensed History" discusses Japan in its past, present, and probable future conditions in a lucid and instructive manner; "John Rickson's Trial" is full of interest; "Sea Pictures" is a pretty piece of word painting; "The Owen's Valley Earthquake" is a scientific treatise on a most interesting subject; "A Tale of Spanish Pride" will be read with earnest interest; "Manuel" and "Ultrava" will fully repay perusal. The poetic contributions of this number are above the average. We find the "Etc." more than usually good. We heartily commend the *Overland Monthly* as one of the very best of American magazines. John H. Carmany & Co., publishers, 409 Washington Street, San Francisco.

CHANGED FRONT.—The Detroit *Free Press*, the leading Democratic daily of Michigan, up to the time of the Baltimore Convention bitterly opposed the nomination of Greeley by that body, but has since yielded and now promises the candidates and platform its hearty support.

POSTOFFICE MOVED.—Postmaster Pockman has moved the office to Freeman's new building, on First street, two doors north of the Express office.

District Court Summons.

IN THE DISTRICT COURT of the Sixth Judicial District of the State of California, in and for the County of Yolo. T. W. HARPER, Plaintiff, against JAMES ASHER, et als., defendants. Action brought in the District Court of the Sixth Judicial District of the State of California, in and for the County of Yolo, and the Complaint filed in said county of Yolo, in the office of the Clerk of said District Court.

The People of the State of California send greeting to JAMES ASHER and MARGARET ASHER, Defendants:

You are hereby required to appear in an action brought against you by the above-named Plaintiff in the District Court of the 6th Judicial District of the State of California in and for the county of Yolo, and to answer the Complaint filed therein, within ten days (exclusive of the day of service) after the service on you of this summons—if served within this county; or, if served out of this county, but in this district, within twenty days; otherwise, within forty days—or judgment by default will be taken against you, according to the prayer of said Complaint.

The said action is brought to obtain a decree of this Court for the foreclosure of a certain Mortgage described in the said Complaint, and executed by the said James Asher and Margaret Asher on the 26th day of November, A.D. 1868, to secure the payment of a certain Promissory Note bearing date of November 26th, 1868, for the sum of two hundred dollars ($200) with interest at the rate of one and one-half (1½) per cent. per month until paid; that the premises conveyed by such Mortgage may be sold, and the proceeds applied to the payment of said Promissory Note, and in case such proceeds are not sufficient to pay the same, then to obtain an execution against said James Asher and Margaret Asher for the balance remaining due, and also that the said Defendants, and all persons claiming by, through or under them may be barred and foreclosed of all right, title, claim, lien, equity of redemption, and interest in and to said mortgaged premises, and for other and further relief.

And you are hereby notified, that if you fail to appear and answer the said Complaint, as above required, the said Plaintiffs will apply to the Court for the relief demanded in the said Complaint.

Given under my hand and the Seal of the District Court of the Sixth Judicial District of the State of California, in and for the County of Yolo, this first day of June, in the year of our Lord one thousand eight hundred and seventy-two.

D. SCHINDLER, Clerk,

Notice to Whom it May Concern.

U. S. LAND OFFICE,
MARYSVILLE, CAL., June 14th, 1872.

WHEREAS, The State of California claims, under the confirmatory clause of the Act of Congress approved July 23d, 1866, the following lands described as Swamp and Overflowed Lands, viz:

East half of northwest quarter of section 35;
East half of southwest quarter of section 35;
Township 11 north, range 2 east, Mount Diablo meridian; and whereas, portions of said lands are also claimed by the State of California, under the 500,000-acre grant claiming the southeast quarter of section 34 and the southwest quarter of section 35, town 11 north, range 2 east; also William F. Mock, by D. S., 2516, filed July 7th, 1864, alleging settlement 6th July, 1864, upon the northwest quarter of section 35, town 11 north, range 2 east; and Thomas Laugenour, claiming under the 7th section of the Act of Congress approved 23d of July, 1866, the east half of the southwest quarter of section 35, town 11 north, range 2 east; also, the W.P.R.R.Co. claiming the southwest quarter of section 35, town 11 north, range 2 east. And whereas, by the Hon. Commissioner's letter, dated April 15th, 1870, this office is instructed to call upon the adverse claimants to show the cause why their said claims should not be declared invalid and the lands be listed to the said State.

Now, therefore, in accordance with said instructions, the parties above named and all others having any interest in the above described lands will appear at this office in the city of Marysville, on WEDNESDAY, JULY 24TH, 1872, at one o'clock, P.M., then and there to show cause why said claims should not be declared invalid and the land awarded to the State of California as Swamp and Overflowed, under the aforesaid act of July 23d, 1866.

Town and County Matters.

The Narrow Gauge Railroad.

We publish this week another communication setting forth some of the advantages that will accrue to the farmers and business men in that vicinity by constructing a narrow gauge railroad from Cache Creek Canyon through Buckeye and Dixon to Maine Prairie or Cache Slough. A meeting of those interested in this project will take place to-day at Dixon. Our correspondent makes a very good showing. But read for yourselves:

BUCKEYE, YOLO CO., July 15th, 1872.

EDITOR DEMOCRAT:—While going around over the proposed route of the Main Prairie and Clear Lake narrow-gauge road, for the purpose of putting up posters and getting distances between different points, in order to make a map of the road, I have been frequently asked the question, "Who is at the head of this thing?" My reply has generally been that it had no head yet, and that it was the intention of the meeting at Dixon, on the 20th inst., to "put a head on it."

But for the satisfaction of all, I will state that I was the author, over the signature of "Norfolk," of an article that appeared in the YOLO DEMOCRAT a few weeks ago, calling the attention of the people to the importance of this route. That article has had the desired effect of arousing the people to a sense of their duty and interests; and here let me say, for myself as well as other property-holders interested, that we are under many obligations to the Sacramento *Union* for having assisted largely in presenting this matter to the minds of the people, and giving valuable information in regard to narrow-gauge railroads, for which great service the *Union* has our sincere thanks.

That article led to a correspondence between Capt. Merithew and myself, which resulted in the call for a mass meeting. As it will be expected that I will have something to say on the day of the meeting, and as I am a very poor hand at speaking, I take this method of saying it through your columns, where it may be read by many interested parties who cannot be present to hear it.

I take it for granted, that since this matter has been agitated, it will not be allowed to halt for a moment until there is a road built on this route. The next question is, who will build it? Will the people along the route do it, or will they suffer it to be built by capitalists and sold to the great monopoly, as the Vallejo and Marysville road was? Can this thing be done, for our own real benefit, without the sinister aid of the great oppressors who are led on by Leland Stanford?

I propose to show that the real estate owners are able to build it and own it, as will readily appear by the figures here offered for careful consideration. The probable amount of freight that would pass over the road in one season, if completed to Putah Creek only, supposing the freight to come from a distance of six miles on each side of the road for a distance along it of eighteen miles, will be 41,422 tons. This is based upon a computation of an area of 216 sections of land lying between Dixon and Cache Creek Canyon. Add to the above freight 6,000 tons from Berryessa, making also estimates for Hungry Hollow and Cache Creek Canyon at 6,000 tons, and we have 53,422 tons, which at $2 per ton will amount to $106,844. Add to this $12,000 for freight on lumber, and $12,000 for passengers and promiscuous freight and we have a footing of $130,844, as the gross earnings of the road in one year.

As for the plan to raise the money, let us suppose that we can get the whole amount of stock taken for thirty miles of the road, say $300,000 in shares of $100 each. We would then require ten per cent. to be paid in, which would amount to $30,000 and immediately put seventeen miles, including Putah bridge, under contract, to be graded and tied. We then propose to sell $100,000 of the Company's bonds, to expend for iron and rolling stock in England, the bonds to bear ten per cent. interest, and the iron to arrive in time to lay the track for carrying off the next Spring crop. We would then order another assessment of ten per cent., which would be sufficient for the completion of the road to Putah Creek. And now out of the earnings of the road we propose to pay the interest of the $100,000 bonds and the running expenses of the road for one year, leaving a sinking fund of ten per cent., so that in ten years the road will pay the bonds. The second year we propose to levy another assessment on the capital stock, for grading and ties, of ten per cent., and issue another $100,000 in bonds to be provided for as in the first issue, so that in eleven years the bonds will be paid and the capital stock will have been taxed only about forty per cent. We then have the Company out of debt. I hope my figures may be severely criticized, and all mistakes corrected, but think they will be found to contain no material errors.

Yours respectfully,
R. C. BRIGGS.

LECTURE AND ENDOWMENT MEETING.—As per announcement, Judge Johnson delivered a lecture upon the subject of Education in the Christian Church on Saturday evening last. The lecture was very interesting, and ought to have been listened to by a larger audience. A vote of thanks was tendered to the Judge for his very able and eloquent address. Rev. W. S. Urmy made some remarks decidedly favorable to the cause of education, and favoring the endowment of Hesperian College. We may mention that Mr. U. also paid a high compliment to the press during his remarks, referring to the immense power it wields, etc. Elder Webb, the special agent to solicit subscriptions, explained the plan somewhat, and other gentlemen made brief remarks. The meeting adjourned without taking any definite action, but it is presumed the gentlemen who have charge of the matter of endowment will soon be heard from. We sincerely hope their calls will be responded to by liberal subscriptions, so as to make the endowment a sure thing. Woodland cannot afford to do without it.

ADMITTED TO PRACTICE.—Castillo Ball, of this place (brother of J. C. Ball, Prosecuting Attorney of Yolo County), a graduate of the of the Law Department of Michigan University, was admitted to practice at the present term of the Supreme Court of California.

RE-ELECTED.—We notice by the Alameda papers that W. W. Stone, formerly of this place, has been unanimously elected principal of the public school at Alameda for the next school year.

UNITED STATES IN THE LIGHT OF PROPHECY. Washington Hall being taken up for other purposes, Isaac S. Henry, of Tahiti, will continue his expositions of Prophecy at the Christian Church of this place. The subject for Sunday at 4 o'clock P.M. will be the most beautiful of all emblems, the Woman clothed with the Sun, and the Man Child, with which will be coupled the great two-winged Eagle (the United States of America), who now arises in the bloom of her power, to the rescue of the Woman in the hour of her extremity. (Rev. xii). Mr. Henry will also preach on the streets at the corner of the Capital Hotel, at 9½ A.M. on Sunday.

WILTON TROUPE.—This favorite dramatic company gave entertainments on Thursday and Friday evenings in this place to large and delighted audiences. They are so well known here that the announcement of their appearance is sufficient to fill the Hall, if there is any money to spare in the community. Mrs. Ellie and Frank Wilton, Miss Georgie Hayne and Kelley are old favorites. The other members of the troupe are new here, but they understand their business and help to make the best traveling troupe on this Coast. They perform to-night at Knight's Landing—where we bespeak for them a full house—and from there go to Colusa.

REPORT OF FINANCE COMMITTEE.—We, the Committee of Arrangements, certify that we have examined the books of T. P. Magee, Treasurer of Committee of Finance for the Celebration of the Fourth of July, and take pleasure in stating to the public that we find them correct. If the delinquent subscribers come forward and pay the amount of their subscriptions, all debts contracted can be paid.

HEALTH LECTURES.—Dr. Kellogg will lecture in the tent in this place on Monday and Wednesday evenings, July 22d and 24th, at 8 o'clock, on the subject of Health Reform. The Dr. claims that in the majority of cases sickness is occasioned by the unphysiological habits of the people, and that those who will live in accordance with the laws of life and health will escape disease and live to a good old age, while those who transgress those laws will have sickness and find premature graves. He will explain the laws of health. The public are invited.

YOLO COUNTY HORSES.—The two fine horses composing a match team sold in San Francisco by Hon. Charles F. Reed, for exportation to Japan, are the produce of "Black Eagle," and were raised near Knight's Landing. They are said by competent judges to be the finest animals ever exported from this coast. They are black, well matched in weight and action, and as "footy" as may be expected from colts of this strain. There are plenty more of the same sort left in this vicinity.

TWO INSANE CASES.—On Wednesday last Sheriff Bullock arrested a boy of fifteen years who had strayed away from his home at Sacramento, and had been advertised for by his mother. From the manner in which he conducted himself he is evidently insane. He was taken to Sacramento by the Sheriff the same night. A man who is known as "Scotty" was also arrested on a charge of insanity the same day. He manifested a rather belligerent disposition.

I. O. O. F.—The following officers of Woodland Lodge, No. 111, I. O. O. F., were installed on Saturday evening last: Augustus Carey, N. G.; R. B. Mosby, V. G.; Elias Peterson, Rec. Sec.; R. H. Newton, Treasurer; D. M. Burns, Per. Sec.

For Yolo Lodge, No. 169, of Davisville, the following officers have been duly installed: S. J. Fish, N. G.; I. C. Steel, V. G.; A. B. Shearer, Rec. Sec.; J. A. Kingsman, Treasurer.

GREAT COUNCIL.—The annual session of the Great Council of the Improved Order of Red Men of California will commence its session for 1872 in San Francisco on Tuesday next. The representatives from Shawnee Tribe of Woodland, are W. A. Henry, Wm. Saunders and Jason Watkins. Those from Siskiyou Tribe, of Davisville, J. E. Parmeter, Wm. Dresbach and Mr. Fish.

RETURNED.—Elder J. N. Pendegast and wife returned from the East on Monday last. We hear that the Elder accomplished the objects of his mission satisfactorily, enjoyed a visit among old friends and acquaintances in Kentucky and other States, and feels benefited by this trip. His many friends will be glad to hear of his safe return.

REVIEW.—Several discourses have been delivered in Washington Hall by Isaac S. Henry, of Tahiti, upon prophecies of the Bible, the restoration of the Jews, etc. Posters announce that a review of these discourses will be given at the Tent on Saturday and Sunday, (this and to-morrow evening,) to which all are invited.

ENTERPRISING FIRM.—Messrs. Sibley & Callen have formed a copartnership for carrying on building in all its branches, and have erected a new shop, fitted up with a powerful engine and all necessary machinery, so that their facilities are not surpassed on this coast. Shop on street south of the College.

INSTALLATION.—District Deputy, J. Parmeter, of Davisville, on Wednesday evening last installed the following officers of Shawnee Tribe No. 40, I. O. R. M., of Woodland: Sachem, Jason Watkins; Senior Sagamore, T. B. Reindollar; Junior Sagamore, A. C. Kean; Prophet, Wm Saunders.

DRUIDS' CELEBRATION.—Dodona Grove, No. 18, United Ancient Order of Druids, of this place, will celebrate their second anniversary July 31st, when a public lecture on Druidism will be given in Washington Hall, by a prominent member of the Order. A social dance will follow the lecture.

SURE TO GO.—Mr. R. A. Daniel, of Buckeye, is enthusiastic in the narrow gauge railroad project, and says he feels confident the projected line to Cache Slough will be built. We hope for their sakes that our Buckeye friends will not be disappointed.

NEW OFFICE.—Drs. Mehring and Ross have formed a copartnership and opened an office over Nickelsburg Bros.' store, on Main street, opposite the College.

BAG FACTORY.—We learn that a factory is soon to be started in Woodland for the manufacture of grain sacks from jute, the material to be imported.

FOR THE VERY BEST PHOTOGRAPHS, go to Bradley & Rulofson's Gallery, without stairs. ☞ *Ascend in the Elevator*—120 Montgomery St., San Francisco.

DANIEL DREW FOR HONEST OLD HORACE.—Remarks the New York *Sun* of July 2d, Daniel Drew "In conversation with an old friend said that he was not an admirer of Dr. Horace Greeley, but added: 'I tell all my friends that we have got to vote and work for the old fellow because he is an honest man and the only one who can beat Grant.'" He said it was a mistaken idea that the Wall street bankers and brokers were not for Horace Greeley, and assured his friend that they were all for Greeley and Brown. "Bet your money on Horace," said the old financier, "if you want to win."

DEPOT EXCITEMENT.—For several days past there has been a good deal of talk on the street about changing the railroad and depot to the east side of town, the Company not having room enough at the present location, and by changing the route it would cut off quite a long curve and shorten the distance some half a mile. But whether this will amount to anything more than talk we are unable to form an opinion.

SUSPENDED.—Work at the well has been suspended, temporarily, but will shortly be resumed under the management of the gentleman who furnished Stockton with an abundant supply of good water. We understand it is the intention to use the water already obtained, and sink other bores in the same locality, by which means they are confident of getting all that will be required.

ATTEMPT TO COMMIT RAPE.—A man named Jonn Hall was arrested by the Sheriff on Wednesday, charged with an attempt to commit rape on a little girl between four and five years of age, daughter of D. A. Stump, of Cottonwood. He was examined before Justice Thompaon and held to appear before the grand jury.

PAY UP.—All persons who are indebted to me, either by note or book account, are requested to make immediate settlement, and unless payment is made within two weeks from this date (July 20th), I shall immediately proceed to enforce the same.

EXCHANGE HOTEL.—We mentioned last week that this house was about to be opened. Since then it has verified the notice, and appears to be doing a thriving business.

MERCHANT TAILOR.—We call attention to the card of E. Eidinger, merchant tailor, who has opened a shop east of Washington Hall, and does work at fair prices.

SPECIAL NOTICES.

TO INCREASE and thicken the growth of the hair, use Hall's Vegetable Sicilian Hair Renewer.

"BILIOUS."—If you feel dull, drowsy, debilitated, despondent, have frequent headache, mouth tastes badly in morning, irregular appetite and tongue coated, you are suffering from Torpid Liver or "Biliousness." In many cases of "Liver Complaint" only a part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy. Sold by all first-class druggists.

Midsummer Maladies.

The hot solar rays that ripen the harvests generate many distressing diseases. If the liver be at all predisposed to irregularities, this is the season in which billious attacks may be anticipated. A weak stomach, too, is weakest in the summer months, and the loss of vitality through the pores by excessive perspiration is so great, that a wholesome tonic, combining also the properties of a diffusive stimulant and gentle exhilarant, is in many cases necessary to health, and under no circumstances should be dispensed with by the sickly and debilitated. Of all the preparations intended thus to refresh, sustain, and fortify the human frame, there is none that will compare with Hostetter's Celebrated Stomach Bitters. They have been weighed in the balance of experience and not found wanting; have been recommended from the first as a great medicinal specific, not as a beverage, and, in spite of interested opposition from innumerable quarters, stand, after a twenty years' trial, at the head of all proprietary medicines intended for the prevention and cure of all ordinary complaints of the stomach, the liver, the bowels and the nerves. In the unhealthy districts bordering the great rivers of California, Hostetter's Stomach Bitters may be classed as the standard one for every species of intermittent or remittent fever. The people who inhabit those districts, place the most implicit confidence in the preparation—a confidence that is increased every year by the results of its operation.

As bitters, so called, of the most pernicious character, are springing up like fungi on every side, the public is hereby forewarned against the dram-shop frauds. Ask for Hostetter's Bitters; see that the label, etc., are correct, and remember that the genuine article is never sold in bulk, but in bottles only. jy13

JACKSON'S

PATENT ELEVATOR.

AND SELF FEEDER

ATTACHMENT TO THRESHING MACHINES.

I take pleasure in announcing to Farmers and Threshermen that I am building my improved Elevator and Self-feeder, and will fill all orders at short notice. The Attachment is very simple and durable, and can be attached to the machine in a very short time. It will save half the labor required to furnish grain to the machine, and feed it better. For further particulars send for circular. Address BYRON JACKSON, Sacramento City, care of Baker & Hamilton. my25-3m

TESTIMONIALS.

Davisville, July 4th, 1872.

Mr. Jackson:—At your request I give what I think of your Elevator and Self-Feeder. I think it is just what the Thresher wants. It is all you claim for it in your circular, and will pay for itself every month to thresh from headers and more in threshing from stacks. I can thresh more, feed it more regularly, and do better work than by hand feeding. I would not do without it for twice its cost; in short, I would not run a thresher without it.

GEORGE W. FOSTER.

Dixon, July 3d, 1872.

Mr. Jackson—Sir:—After using your Patent Elevator and Self-feeder ten days upon a Pitts 36-inch Separator, with a Wood & Mann Engine, we cheerfully indorse the merits claimed in your circular for the attachment. We can feed more regularly, thresh tough grain cleaner and crack it less.

NEWMAN & MANN.

Mr. Jackson—Sir:—I am using your Elevator and Self-Feeder on my 36-in. Pitts 12-horse power machine. I think it is all that is claimed for it. I cannot see that it requires any more power than by hand feeding. It feeds more regular and can thresh more grain with the same power. It will more than pay for itself every month.

jy6-tf J. A. MIKES.

CATTLE STEALERS ARRESTED.—The Plumas *National* of the 8th says: County Assessor Stiner arrived in town by Bates' stage line on Tuesday evening last, having in charge two men named Elija Lamb and Albert Powers, who are charged with stealing a drove of cattle from C. T. Adams, of Beckworth valley. Stiner gave us the following particulars of the transaction: The cattle were missed on Saturday last, and suspicion being fastened on the parties, a search was commenced on Sunday, which resulted in finding the stock—twenty-three head—in the possession of Lamb, and also a horse belonging to Morg. Brown. They were in Dixie Valley, a small valley between Last Chance and Red Clover. Lamb started to run when the party came in sight, and they had to chase him about a mile before overtaking him. Powers, who was supposed to be a partner in the operation, was arrested by Stiner at his house in Last Chance valley. They were taken to Summit and examined before Justice Whitcraft, who committed them to jail to await the action of the grand Jury, which is called to meet on the first Monday in July. The feeling against the men was very strong at the Summit on Sunday and the question of resorting to lynch law was freely discussed, but it was finally thought better to turn them over to the officers. The parties are brothers-in-law, and the cattle were stolen from another brother-in-law. Powers is a son of the Powers, who is now serving out a ten years' sentence in the State Prison for shooting a boy in Yolo county, some time since.

"THE HEAD OF THE FAMILY."

NICHOLS, SHEPARD & CO'S

Grain-Saving, Time-Saving, Money-Making

"VIBRATOR" THRESHERS,

And their elegant convertible

"Mounted" Horse Powers.

Office and Factory, at Battle Creek, Michigan.

Recognized, in the trade and in the field, as the "leading thresher" of the period. FULLY ESTABLISHED through many years of successful use. ENDORSED by more than sixty thousand farmers and grain raisers who have employed and used them. IN USE in eighteen States and four Territories, with largely increasing demand and growing popularity. UNIVERSALLY COMMENDED as embodying the only true principle, and pronounced the "coming machine." PRE-EMINENT for saving grain, saving time, fast work, perfection of cleaning, adaptation to varying conditions of grain, convenience, ease of draft, and ease of management. PECULIARLY ADAPTED to handle flax, Timothy, Alfalfa and other seeds, so difficult with others. IN DEMAND by grain raisers, at remunerative prices, while neighboring machines are idle. ATTRACTIVE in simplicity of parts, having only four belts and one set of gears. SPECIALLY NOTICEABLE for making no "litter," and requiring no "cleaning up" process after it. ASCERTAINED BY FARMERS to save them the cost of their threshing bills, by the increased saving of grain alone, over and above the best of others. OBTAINING the "pick" of jobs and extra prices for its work. UNRIVALLED in durability, handiness, ease of management, ease of draft, elegant finish, substantial construction.

The Elegant "Mounted" Power,

Mounted on four wheels, where it remains when in operation. ATTRACTIVE FEATURES: securely fastened with two stakes: levers, tumbling rods, etc., carried with it; the "angling" line shaft, by which all short kinks are avoided in "coupling up" all boxes, journals, shaft and gears independent of the wood frame; gears "clutch" on; only one key used; convertible to different speeds, at trifling cost, to match other machines; of the lightest draft, very durable, easily and cheaply repaired; sold separately, if desired, and speeded to match other separators or machinery.

ALL PERSONS who think of buying a new Thresher and want the "leading machine," and all farmers who raise grain and want it threshed, saved and cleaned to the best advantage, are cordially invited to send me their address, and receive (FREE) our Illustrated Pamphlet and Circular, containing a full description of these superior machines, with other valuable information.

The Yolo Democrat.

Saturday, July 20th, 1872.

MISCELLANEOUS ITEMS.

SAMUEL C. TABER has resigned from the Republican State Committee of New York, and goes for Greeley and Brown.

ALL the daily papers in Alabama have hoisted the Greeley ticket. The whites are satisfied with it, but the negroes are not.

"I will preach from dat portion ob de scripture dis ebenin'," said a colored divine, "where de 'Postle Paul pints his 'Pistle at de 'Phesians."

SMALLPOX has broken out among the workmen at the State Prison, who are lodged outside the walls, and the institution has been placed in quarantine.

IT has been determined, as we have been informed on good authority, that the famous trotting mares Goldsmith Maid and Lucy will arrive in Sacramento from the East about Fair time.

GEN. KILPATRICK, who did more effective work for Grant four years ago than any other speaker, is now addressing Greeley meetings in New York State, and making it very lively for the Grant corruptionists.

IN the Fall of 1853, Henry Wilson, the Grant candidate for Vice-President, said: "The time had come when the uniform of the State militia should no longer be disgraced by being seen on the back of a Catholic Irishman or an infidel Dutchman."

THE Salem (Oregon) *Mercury* says the Radicals carried Oregon by fraud. In one county alone—Multnomah—the votes cast exceeded the poll-tax list by more than a thousand. This seems to be the work Attorney-General Williams was sent to do.

THE Pacific Mail Steamship Company notify the public that the service has been increased to three trips per month between San Francisco and New York, and to two trips per month between San Francisco and China. This change has been made in consequence of increased business.

THERE are 181 ships on the way to San Francisco from Eastern ports, having a freightage capacity of over 150,000 tons. This is cheering, as the vessels will be able to carry off a goodly portion of the wheat crop. At present there is only one disengaged ship in the harbor of San Francisco.

IT is provided by the Postal Regulations that publishers of newspapers may write upon regular publications the address of the subscriber and the date when the subscription expires, and may enclose bills and receipts for subscription without paying extra postage. No extra charge is made for a card printed on envelop or wrapper.

THE New York *Tribune* wonders what would be said "if the President of Harvard University should appoint his father Professor of Greek, his uncle Professor of Latin, his brother-in-law Professor of Mathematics, and his great-grandmother Professor of Rhetoric, and should, moreover, sell sheep-skins for his own private emolument."

THE announcement of the nomination of Greeley and Brown created a profound sensation in Eureka, Nevada. Democrats, and many conservative Republicans will give the ticket a most earnest support. There was a grand rally on Saturday evening to ratify the nominations. Frank Tilford, of Hamilton, and other speakers addressed the meeting.

WE notice that some of our contemporaries are finding fault with the Hon. Henry Wilson because, they say, his original name was Jeremiah Colbaith, and he had it changed by act of the Legislature to his present appellation. Very well, why shouldn't he? Jeremiah Colbaith isn't a handsome name, and Henry Wilson is. But if he hated the name of Colbaith in his youth, how will he feel about the cold bath he will receive when he is immersed in the icy waters of Salt River in November? Poor Wilson!

ON the evening of July 11th, a meeting was held in San Jose to ratify the nominations of Greeley and Brown. Dr. A. J. Spencer, an old line Republican, was called to preside, and after a while introduced Judge C. H. Sintre, another old line Republican. Judge Archer was followed by David Hobson and C. T. Ryland, who closed with a few lively remarks and declarations of Greeleyism. Senator Maclay was then called and occupied the stand about twenty minutes with a lively and enthusiastic speech. E. H. Swarthout, Dr. Spencer and Thomas Bodbey followed with a few pointed remarks, when the meeting adjourned.

ALL the talk in the Grant organs about the inconsistency of the Liberal Republicans and Democrats co-operating together is the merest nonsense. Neither party to the coalition is inconsistent—both are eminently consistent. Neither could have preserved their self-respect if they had not coalesced. When they differed in the past they acted in separate and antagonistic organizations, as it was right and proper they should. When they agree in the present, which they happen to do, of course they act together. Each side to the fusion carries out its political principles. The only persons in this campaign who are inconsistent are the Grantites, who have turned their back upon all the old professions of the Republican party.

THE Grantites are very sweet on "our adopted fellow-citizens." Mr. Henry Wilson was one of the original Know Nothings, and did his utmost to organize the bad party whose chief principles were that none but Americans should rule America, and that no naturalized citizen should be allowed to vote until he had resided here twenty-one years. It was over the backs of these Know Nothings that Mr. Henry Wilson climbed into the United States Senate. And this original Know Nothing is the Grant candidate for the Vice-Presidency. And "our dear adopted fellow-citizens" are expected to huzzah themselves hoarse over the nominee. It would seem that the Grantites imagine that foreigner and fool are synonymous terms.

GREAT DISCOVERY OF SILVER ORE. A dispatch from Salt Lake, dated July 11th, says: "The greatest body of mineral ever discovered has recently been located by two men from Illinois, named McHenry and Hughes, in the Wasatch range, seven miles south of Kimball's Hotel, Parley's Park, and twenty-five miles from Echo, on the Central Pacific Railroad. The ledge crops out seventy feet, with an average width of thirty feet. Numerous essays show a yield in silver of $250 to $1,100 perfectly free milling ore. Visitors estimate the rock in sight to be over 20,000 tons, valued at over $5,000,000. Old mining experts and prospectors are greatly excited."

Plantation Bitters

S. T.---1860---X.

This wonderful Vegetable Restorative is the sheet anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid, it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

REASONS WHY:

BECAUSE they have as good if not the best reputation at home. Each Wagon is perfect in all its parts.

BECAUSE my prices are as low as the lowest for first-class work.

BECAUSE I can furnish the highest home testimonials as to their durability and lightness of draft.

BECAUSE none but the best and most experienced mechanics are employed in their construction.

BECAUSE they are built upon scientific principles, combining the greatest strength with lightness of draft.

BECAUSE wherever introduced they are generally preferred by Liverymen, Farmers and Freighters.

BECAUSE they are made in a very DRY CLIMATE, and from that fact are far superior for service to those built in more moist or damp parts of the country.

BECAUSE I give rules for taking care of carriages.

First—The carriage-house should be apart from the stable, as the ammonia arising from horse manure will in a very short time destroy the varnish on a carriage, and then the owner ignorantly charges the carriage maker with using inferior varnish.

Second—In washing a buggy cold water should be used freely, so as to remove the dust and mud before using the sponge and chamois skin.

Third—Never turn the hose under or on the seat, for the water will loosen the canvass and glue, and cause the corners to give way and the body to go to pieces.

Fourth—To preserve the wood and save expense, the carriage should be kept thoroughly painted and varnished.

Fifth—I am better prepared than ever, to Paint, Ornament and Varnish Carriages, Wagons, etc. I have in my employ the best of buggy painters, and use none but the best articles of paints, oils and varnishes; the above in connection with my Paint Shop and Varnish Rooms, which are as good if not the best on this Coast, being hard finished and free from dust. I can, and have turned out as smooth, clean and nice finished jobs as can be done in the State.

Sixth—Those wishing to get their buggies, carriages, etc., repaired and painted, will do well to call at my shop and examine my superior advantages over other shops. I am willing to abide by the injunction, "by their works ye shall know them." I am willing that my work shall praise me; I ask no other endorsement. This endorsement I have had in past years; this I expect to merit and maintain in the future.

BAPTISED IN FIRE.

THE CHICAGO PHENIX!

A Universal Newspaper.

READ THE FOLLOWING!

A popular weekly paper for the times, embracing the leading features of those journals destroyed by the terrible conflagration, and combining just such a corps of writers as will give the public all the news of the week, in a condensed compilation of the leading journals of the nation and the world.

A Truthful Record.

The PHENIX will be the most truthful and reliable recorder of incidents and facts concerning the great fire, ever published.

Accounts of the Fire.

It will contain only such accounts as are vouched for by reliable witnesses, and will correct the erroneous and fabricated statements of sensational writers.

Chicago and the News.

It will, for a time be devoted especially to the past, present and future of Chicago, besides being the most complete weekly newspaper in the world.

Fireside Companion and Newspaper.

Its columns are devoted to News, Commerce, Science, Literature Art, Drama, Music, Humor, Pastime, Poetry, Fashion, Society news, and enough of Romance to make it a most desirable fireside companion, as well as the most reliable and complete newspaper for the business man in the counting-room.

Beautiful Illustrations.

It will be illustrated with engravings taken from Photographs of the Chicago Ruins, instead of sketches, "By Our Special Artist" who was not "on the spot;" and thus give a series of PERFECT VIEWS, not obtainable elsewhere, and the first number will contain the only correct map of the burned city.

Happy Hours.

That beautiful literary journal, "HAPPY HOURS," whose publisher was the first to issue a paper to meet the public demand, after the awful fire, has been merged into the literary department of the PHENIX, which will embrace the contributions of more than sixty of the most popular writers of the day.

A Special Feature.

The PHENIX will contain, as an especial feature a more complete record of incidents and results of the late terrible fire, than can be found in any book, paper or other publication in the country. So numerous and inaccurate have been the accounts sent forth, that something reliable and readable is eagerly sought at this time, and the PHENIX will fill the bill.

A Paper for the People.

The PHENIX is the cheapest paper in America, being an eight-page, forty-column weekly at only two dollars a year; in fact in shall be the paper for the people and the times.

The First Number.

The first number will be issued on Saturday, November 11th, and will be the paper wanted by everybody, as a record worth preserving or sending away, and for its accurate illustrations.

Its Basis.

It is a consolidation of other journals, and therefore on a solid foundation, continuing their former circulation.

New Subscribers.

To any person who gets us three new subscribers, we will send the PHENIX for one year free, or one of our beautiful prize, steel plate engravings worth $2,50.

Premiums.

For the purpose of rapidly increasing our subscription list before the close of the present year, we will give to every person who subscribes for the PHENIX during the month of November, a beautiful steel plate engraving, worth $2 50, half a dollar more than the price of subscription. No such opportunity was ever before given, and probably never will be again. Avail yourself of it. Engravings will be promptly and safely sent by mail or delivered at this office, as subscribers may wish.

Subscribe Now.

Send in your names and subscriptions at once, and sustain this great newspaper enterprise. Price of subscription only $3 00 per year. Single copies 5 cents. Agents wanted everywhere

Ayer's

Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities, or diseases that have lurked in the system for years, soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of **Scrofula**, and all scrofulous diseases, **Ulcers, Eruptions**, and eruptive disorders of the skin, **Tumors, Blotches, Boils, Pimples, Pustules, Sores. St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm**, and internal **Ulcerations of the Uterus, Stomach, and Liver.** It also cures other complaints, to which it would not seem especially adapted, such as **Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility**, and **Leucorrhœa**, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even where no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

Ayer's

Hair Vigor,

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

WANTED, AGENTS!

$100 to $250 per month—everywhere, Male and Female, to introduce the genuine improved MARSHALL SEWING MACHINE. This machine will stitch, hem, fell, tuck, braid, cord, quilt, and embroider in a most superior manner. Price only $15, fully licensed and warranted for five years. We will pay $1,000 for any machine, high priced or low, that will sew a stronger, more beautiful or more elastic seam than ours. It makes the Elastic Lock-Stitch. Every second stitch can be cut, and still the cloth can not be pulled apart without tearing it. We pay agents $100 to $250 per month and expenses, or a commission from which twice the amount can be made. For circulars and terms, apply to or address.

THE GREAT

Eradicator of Special complaints

—FORMERLY OF—

Lock Hospital, London,

Nine years in Sacramento, and the last ten years in San Francisco, has

Returned to Practice.

After devoting to the practice of his profession and the successful treatment of CHRONIC DISEASES

Forty Years of his Life,

He determined to retire from his profession and devote the remainder of his days to the quiet enjoyment of private life; but the constant applications from the suffering everywhere, calling him to their relief, finally determined him to visit once more the scene of his early triumphs, LOCK HOSPITAL, and to spend a year within its wards in familiarizing himself with all the

New Methods

Of treatment in that celebrated institution and then devote a few more years of his life to the alleviation of suffering humanity. He is again located at his old office, corner of Jackson and Kearny streets, San Francisco, where for ten years previous, his practice as a SPECIALIST resulted in the cure of all cases brought under his care. The Doctor's motto is: "Honorable and successful treatment and moderate charges to all."

My Plan is Purely Vegetable,

Destroying the disease and purifying the blood, so that there is no danger of secondary symptoms.

Rheumatism, Neuralgia,

And diseases arising from the use of Mercury, such as pains in the shin-bones, swellings of the different joints of the body, running sores, etc., and impurities of the blood, cured in a short time by the use of my VEGETABLE MIXTURES, known only to myself.

Seminal Weakness.

Should you be afflicted with any of the following symptoms, such as Weakness of the Back and Limbs, Pains in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory, Confusion of Ideas and Depression of Spirits, Evil Foreboding, Self-distrust, and aversion to society, consult Dr. Tozer at once, and he will restore you to perfect health.

My Monthly Restorative Pills

Were never known to fail in giving relief in the cases for which they were recommended, and are to be obtained only at my office. Price FIVE DOLLARS, with full directions on each box. Sent by mail or express.

To Correspondents.

Patients of either sex residing in any part of the country, however distant, who may desire the opinion and advice of DR. TOZER, can, by submiting a written statement of the case to the Doctor, receive all the attention and medicine necessary to effect a cure, without the necessity of a personal interview.

All letters strictly confidential, opened and answered by the Doctor himself.

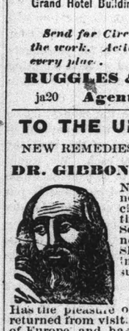
DR. GIBBON'S DISPENSARY.



No. 632 Kearney Street, corner Commercial, San Francisco, established in 1854, for the treatment of Sexual and Seminal Diseases, Weakness, Impotency, etc., etc. Skin diseases of years standing, and Ulcered Legs, etc., successfully treated.

DR. GIBBON

Has the pleasure of announcing that he has returned from visiting the principal hospitals of Europe, and has resumed practice at his Dispensary, 632 Kearney street, corner of Commercial, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Produces with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves or rattling chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, confidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples and various eruptions about the face, hectic flushes, furred tongue, foetid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure.

Persons at a distance may be cured at home, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By inclosing $10 in coin, in a registered letter, through the Post Office or through Wells, Fargo & Co.

A package of medicine will be forwarded express to any part of the Union.

Persons writing to the Doctor will please state the name of the paper they see this advertisement in.

Private entrance on Commercial street.

All communications strictly confidential.
